

Personal Care Filaments

Wear Indicator

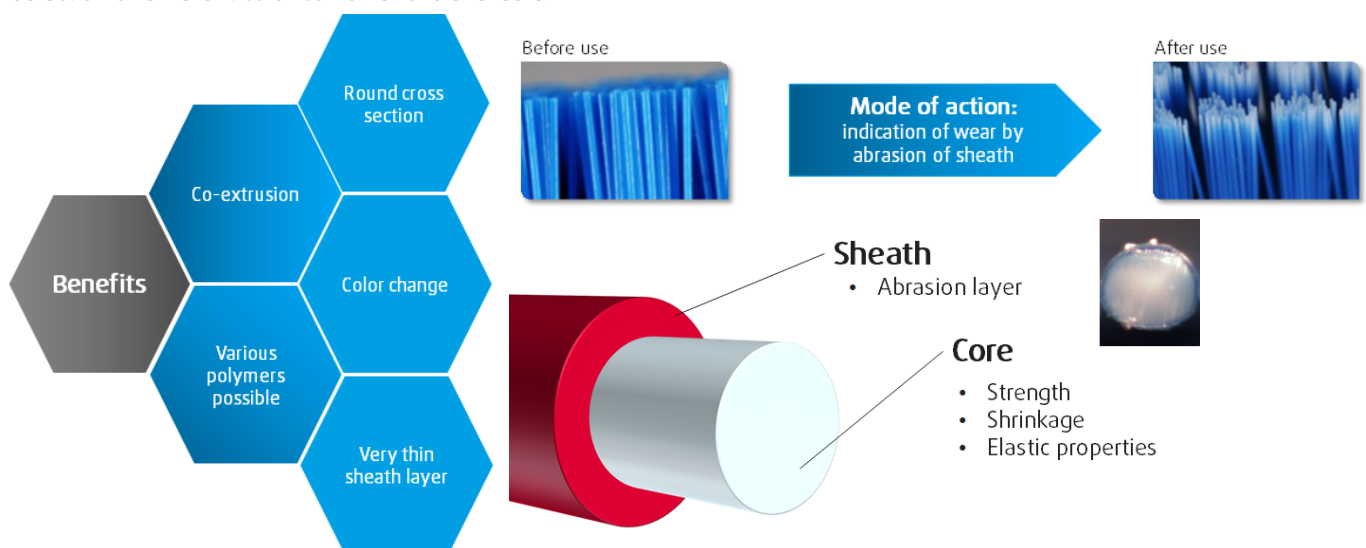

Perlon® – The Filament Company

Perlon® – The Filament Company – is an innovative and global group of companies specialising in the production of synthetic filaments. We produce at sites in Germany, Poland, China, India and the USA. We offer an extremely diverse product portfolio for almost every technical application. We are constantly creating new solutions for unique products – Our Engineering. Your Success.

Innovative Filaments - High Cleaning Performance

Wear Indicator filaments indicate by a visible color change after approx. 3 months of usage that it is time to change the toothbrush. A toothpaste containing more abrasive particles (higher RDA value) may accelerate the color change. Large selection of different color combinations available.

This product information has been compiled to the best of our knowledge and with the greatest of care. We cannot, however, assume any liability for the accuracy, integrity or timeliness of its content. The technical parameters and the behaviour of the filament can vary depending on diameter and production technique.
